

Australian Network for Health, Housing and Homelessness (ANH3)

OUR VISION

A Health-Informed End to Homelessness in Australia

OUR MISSION

1. To promote collaboration amongst the healthcare and housing sectors to drive innovative responses to the health and housing needs of people experiencing homelessness.
2. To provide a national forum for the sharing of experiences and models of care and support amongst health and housing providers and organisations.
3. To support and develop strategic national initiatives to address the health and housing needs of people experiencing homelessness in Australia.
4. To collaborate with local and national partners to advocate to end homelessness in Australia.

OUR PLAN

The Australian Alliance to End Homelessness (AAEH) is seeking to establish this network, based on a similar one from Canada, to improve the health and housing outcomes of people experiencing homelessness in Australia.

We are seeking partners in the establishment and operations of this network. If you are interested in partnering, please make contact.

ABOUT THE AAEH

The Australian Alliance to End Homelessness (AAEH) is an independent champion for preventing and ending street homelessness in Australia since 2013. We recognise that the scale of homelessness in Australia is both preventable and solvable and are committed to working to ensure that any incidents of homelessness that do occur should be rare, brief and non-recurring. AAEH supports Australian communities to individually and collectively end homelessness.

FURTHER INFORMATION

See our policy paper: *Leaving No-one Behind – A National Policy for Health Equity, Housing and Homelessness*, available on the AAEH website.
